This screenshot shows the IBM Cloud catalog page for the Cloudant Lite plan. The page is displayed in a web browser with multiple tabs open. The main content area is divided into two columns: 'Plan' and 'Summary'. The 'Plan' column contains two cards: 'Lite' (selected) and 'Standard'. The 'Lite' card describes full functionality for development and evaluation with a set capacity, noting that only one Lite plan instance is allowed per account. The 'Standard' card describes granular control over provisioned throughput capacity with hourly billing, starting at \$75.00/month. Below the plan cards, a 'Capacity' section lists the included resources: 20 Reads per second, 10 Writes per second, 5 Queries per second, and 1 GB Storage included. A 'Cost calculator' button is also present. The 'Summary' column on the right shows the 'Cloudant Lite' plan as 'Free' and lists the included resources. At the bottom of the 'Summary' column, there are 'Create' and 'Add to estimate' buttons. The browser's address bar shows the URL 'cloud.ibm.com/catalog/services/cloudant'. The Windows taskbar at the bottom indicates a temperature of 22°C and a date of 19-11-2022.
