ManagePlanConnections

### Let's get started with IBM Watson IoT Platform

Securely connect, control, and manage devices. Quickly build IoT applications that analyze data from the physical world.

LaunchDocs

Ready for the next level?

#### IBM Watson IoT Platform Journey

Lite

The Lite service plan provides a lightweight development environment to get you started with the connectivity capabilities of Watson IoT Platform.

Non-Production

The Non-Production service plan is a full-featured, fully-integrated offering that enables you to explore Watson IoT Platform to see how the service can fit into your IoT environment.

Production

The Production service is a fully managed SaaS offering that enables you to manage and analyze enterprise IoT data.

## IBMid

### Welcome to multi-factor authentication enrollment

Choose the verification method or device that you want to add.

**IBM Security Verify app**[Add Device](#)

Verify with a simple tap on your iOS or Android device with the IBM Security Verify app.

**Authenticator app**[Setup](#)

The time-based, one-time access code that is generated by an authenticator app on your smart phone or tablet.

**Email**[New email](#)

The one-time access code to sent to your email address.

Overview

Usage metrics show how much your devices and applications use Watson IoT Platform. You can view a summary of the total usage for this month and the previous month, and details of data transferred during different time periods. The metrics are refreshed every 2 hours.

### Usage Summary
